FEATURES & BENEFITS

Filter Retention Design

The unique patent-pending air filter flange design locks the filter into the heat shield, minimizing hardware for a hassle-free installation.

Dyno-Tuned Tube

The one-piece 3" mandrel bent intake tube is designed to maximize air velocity and is dyno and flow-tested using the latest engineering tools for maximum performance.

OE Mounting Locations

This one-piece heat shield uses factory mounting locations and high quality hardware for a hassle-free installation.
