

BLADERunner®

INTERCOOLER TUBES

2003-2007 DODGE DIESEL TRUCKS
L6-5.9L (TD)

FEATURES & BENEFITS

3" Mandrel-Bent Tubing

Smooth transition bends decrease turbulence, increasing horsepower, torque while reducing EGT's.

High Temp Powdercoating

A high quality wrinkle-black powdercoating is used to protect these tubes from corrosion while adding an aggressive style.

Hassle-Free Installation

These intercooler upgrade tubes are direct stock replacements that retain the factory hardware and mounting locations to provide stability and a hassle-free installation.
