

SILVER BULLET

THROTTLE BODY SPACER

2014 GM GAS TRUCKS
V8-5.3L

FEATURES & BENEFITS

Billet Aluminum Construction

aFe's Throttle Body Spacers are constructed from 6061-T6 billet aluminum and precision machined for lightweight, high-strength, perfect fit and finish.

Serrated/Helix Design

The Serrated/Helix design creates intake turbulence in the combustion chamber. This turbulence breaks up the fuel which creates a more complete combustion cycle increasing horsepower, torque and improving throttle response.

Installation is a Snap

This Silver Bullet Throttle Body Spacer uses all factory mounting locations providing stability and a hassle-free installation.

Up to **10HP & 14lbs.xft**
torque
